

# H U M A N S of T H E R E E F

**What does a day working at the reef look like for you?**

Every day on the Ningaloo is different. At different times of the season, we can see whale sharks, whales, manta rays, dolphins, turtles, dugongs and a variety of fish and corals. Typically my day ends with a sea of happy smiling (slightly sunburnt) faces having had an amazing day exploring the magic of Ningaloo Reef.

**What is your favourite part about working at the reef?**

Seeing the joy it brings to visitors!

**In your opinion, what is the state of the reef?**

Ningaloo is very healthy; there are a number of unique snorkel sites, a huge variety of fish and corals and megafauna.

**What questions do people always ask you about the reef?**

Why do the whale sharks come to Ningaloo?

**What can people do to help preserve and protect the reef?**

Minimise plastic use, be careful when they are boating and snorkelling / diving on the reef

**What is your favourite reef critter?**

Octopuses are pretty awesome to watch!
